I testified for Dave Solet and Jim Mulcahy a couple of times. They may be able to help as well.

I am also a confirmatory chemist. I can state that confirmatory testing is reviewable data and anyone trained in GC/MS can review and interpret the data.

I have attached a set of predicate questions with my answers that we created enlight of Melendez-Diaz. It may help or not. I will review your questions over the weekend and get back to you.

Definitely, keep the expert testimony section, it will build credibility. I would stay away from questions regarding accreditation, and publications.

Thanks

Annie

Hey Annie. We're still on for Monday AM. Because Kate is out... do you mind reviewing her notes so you can testify to her findings and form your own opinion based on her results? If the judge doesn't let us do that... you can instead testify to what the chemists in the lab do for routine samples. I'll see if I can forward you some predicate questions to look over beforehand. Thanks!! - Sean

Hi Annie – DC says it's a trial as of now for [REDACTED] 3/25. Assuming he doesn't take a plea in the last second... I could probably call you to testify 3/28 or 3/29. Does one work better for you? Thanks! - Sean

Subject: Drug Lab: Court Schedule

Hi Everyone,

I have received summons from each of you and I am checking the status of your cases for next week. I will try my best to accommodate.

If you have any questions, please do not hesitate to contact me. Thank you for your cooperation and patience.

Have a nice weekend.

03/21/2011 (Please note: I will need to be out of court by 3:00pm due prior commitments, but with sufficient notice I can adjust my schedule)
